Republican State Convention.

HARRISBURG, April 16, 1867

The "Republican State Convention" will meet at the "Herdic House," Williamsport, on Wednesday, the 26th of June next, at 10 o'clock A M, to nominate a candidate for Judge of the Supreme Court, and to initiate proper measures for the ensuing State Campaign.

As heretofore, the Convention will be composed of Representative and Senatorial Delegates, chosen in the usual way, and equal in number to the whole of the Senators and Representatives in the General Assembly

By order of the State Central Committee

F JORDAN, Chairman

GEO W HAMERSLY, A W BENEDICT, J ROBLEY DUNGLISON } Secretaries.

Republican Primary Meetings.

Pursuant to a Joint Resolution of the County Committees the Republican voters of Crawford County will meet at the places of holding election in their respective districts

FRIDAY, JUNE 21, 1867

between the hours of one and seven o'clock P M, to nominate candidates for the following offices

One person for State Senator
Two persons for Assembly
One person for County Treasurer
One person for Commissioner
One person for Auditor
One person for Jury Commissioner

The return judges of the several districts will meet in the Court House, in Meadville, on Tuesday, June 25th at one o'clock P M to announce the result of said election and also to appoint a County Committee composed of one member from each election district, and to transact such other business as may properly come before them A HUIDEKOPER, Chairman.

ANNOUNCEMENTS.

The terms for announcements in the WEEKLY HERALD are as follows Senate, $10, Assembly and Treasurer $6 each Commissioner, Auditor and Jury Commissioner $5 each Terms for announcements in the MORNING HERALD Senate and Assembly $12 Treasurer $8 Commissioner Auditor and Jury Commissioner $9 The cash must accompany the names in every instance

SENATE

Col. D. C McCoy will be a candidate for the office of State Senator subject to the usages of the Republican party dawtf*

H. L. Richmond will be a candidate for State Senator subject to the usages of the Republican party dawtf*

Morrow B. Lowry.

Wm. Beatty of Meadville, will be a candidate for the Legislature, subject to the decision of the Republican Primary Election in June next wtf*

NASBY.

Triumphal Progress of J. Davis from Fortress Monroe to Richmond.

[Written for the Toledo Blade]

TUZ' STOTSWOOD, RICHMOND VA., May 19, 1867

In castin a retrospective glance backerd over the pathway uv the past, I kin see many mistakes which I hev made. I hevn't ailuz made the most uv opportoonities—I hev doubtid when doubtin wuz a crime, and I hev stood shivrin on the brink and feared to launch away, when on the tother side uv the Jordon wuz pelf and profit. Our foresite isn't ailuz ez good ez our hind site. The great error uv my life wuk in not plungin headlong into the war ez a Confederit Major General, distinguishin myself for croodlty to Federal prisoners, and bein at the close uv the fratricidle struggle received and embraced ez a long lost brother by the Northern people (settin em kill fattid calves for me,) and av course bein the object uv sympathy ez a martyr by the Southern people. In this situoashen a man has two strings to his bow. He brings to his support the two extremes. He fetches together Horris Greeley from the one side and General Bortgard from the tother—they embrace, and standin onto both their sholders he hez wat may be called a soft thing uv it.

I wuz led into these train uv reflections by the experience I hev had with our sainted chief Jefferson Davis. I wuz sent hither by the President to see that everythin wuz done for the comfort uv the illustrious man that good be done on the occasion of his contemplatid trip to Richmond. Particularly I wuz charged to see that everything calkulatid to jir onto his sensitive feelins be removed—everythin which could wound his sense uv hearin, seein or smellin.

The great man had consentid to go. He had bin, he felt, illegally deprived uv liberty—unconstoosholly in fact—and of he should consult his own feelins he would remain, but to forgive wuz divine. Vewin these perceedins in the light uv an apology he would go.

The day had arrived. The steamer wuz at the fortress, carefully prepared to receive its illustrious burden. It had been thoroughly cleaned and fumigated, the cabins had been newly furnished, and special intersession made for the President and party. Ther wuz Yoo'ited States officers and soldiers aboard, but on of respeck for the feelins of their illustrious "prisoner," ez he is technically called, they kep themselves carefully out of his site, that the color of their uniforms might not awaken unpleasant reflecksions. So perfeck, indeed, wuz the arrangements that the railin uv the boat which wuz originally bloo, wuz kivered with gray kloth, and the eagle figgerhead uv the craft wuz sawed off. This wuz suggested by a prominent Conservative uv Noo York, who hez a large Southern trade which he didn't prejudis by his course durin the war. The ladies' cabin wuz originally assigned to the party, but a female passenger bed no more regard for the comfort of the martyr than to die on the passage, an they were deprived uv it. The Conservative merchant insisted that the corpse be chucked overboard, but Mr Davis, with a magnanimity which wuz allus characteristic uv him, refoozed. "No," sed he, "let her rest there. I kin endoor the inconvenience, severe as it is. It is but one more attempt to break my spirit."

All the way up ther wuz the most techin deference shown him. At every landin the people were assembled to greet him, which he acknowledged with a condescension I never saw off the stage. He conversed but little on the passage up. Ez the boat wuz a sweepin majestically past points made historicle by the events uv the great struggle, his eye would brighten, ef they wuz sich pints ez a Confederit cood take pride in, and dim with teers of they wuz pints at which there had bin reverses.

The most considerit preparashens had bin made for his reception. Ther wuz no irons onto him—the only guards in site wuz them which wuz detailed to keep the crowd from annoyin him, and a carriage wuz in readiness, into which we seated ourselves, and wuz driven off at a dignified pace to that resort uv the aristocracy uv Virginny—the Spottswood. Here more considerashun was shown. Mr. Davis being averse to walkin up stairs, a suit uv rooms had bin prepared for him on the first floor, and the presence uv General Burton, uv the Federal army, bein obnoxious, he wuz assigned by the Ex President a room at the further end uv the corridor. His nerves bein very sensitive, hevy matting wuz laid down in all the halls, and the servants uv the house were specially directed to wear felt slippers and to walk on their tip toes.

I wuz invited to his room and wuz favored with a few minits conversashen with the first of Amerikens. Glancin uv the winder, his large soft gray eye rested on the roof uv Libby. "What place is that?" sed he angrily.

"What specail lies hev yoo reference to?" sekt I.

"Them wich wuz publisht in the scurrilous reports uv the committees uv a unconstitoosh nul Congress regardin the treatment uv prisoners in Libby. They asserted that the sluers died becos they hed but ten feet by two to sleepin, washin, cookin and eatin.—They hed that space, and wat more wuz necessary! Why give 'em room to cook when they hen't anythin to cook? Wherefore room to eat if they hedn't anythin to eat? Fo, its false. It wuzn't the crowdin that produced the mortality."

Only wunst was his bosum wrung, and that the Government cood not prevent. He wuz a standin at the winder, gazin on upon Richmond, his mind revertin to the time when it wuz the Kapital uv his Confederacy, when a procession passed with music, and flags and banners. With a shreek uv anguish he buried his head in the kurtins, and wept aloud. Crushed to the winder. It wuz ez I feared. Fillin slowly by wuz a procheesshun uv niggers who hed past that way perposely.

"Merciful Heaven!" sed he, "hev it come to this?" and he wuz very reserved and depressed the balance uv the day.

The next day the President wuz taken to the Court. Ez he entered the room and glanced proudly over the assyence, it wood hev bin very difficult to decide whether he wuz going to try the Court or the Court him. But repressin himself he to took his seat. To him sohsistood wuz displude in the Court room for his comfort. A crack in a winder easing left in a draft uv cold air, he shuddered and a shudder run thro the entire assemblage. The shudder uv the Conservative merchant from Noo York wuz truly artistic. Cotton wuz called for when the Conservative merchant's wife tore off one uv her buzzums and stuft the sportoor. Wuz there ever more tretkin sacrifice? The President wept ez he beheld it. On ascertaining the temperatoor which best soothd his system, a thermometer wuz brot and the room wuz kept at that precise degree.

There wuz some trifling legal formalities gone thro with, and the President's counsel made a motion that he be admitted to bail. There wuz a stir in the Court—"Make it a million," sed one, "so that the craven North shel see how we kin take care uv them we love;" but Judge Underwood fixed it at $100,000, and brisk ez bees Schell, a Noo York Dimocrat several Richmond Dimocrats, and Horris Greeley stept forard and signed it.

Never shel I forgit the shout that ascendid ez Horris wuz signin his name.

"Three cheers for Jeff'son Davis and Horris Greeley and Horris Davis—one and inseparable, now and forever!" should one enthoosiastic confederit.

"Immortality is yours!" sed another seezin him by the hand forcibly. "Jeff'son Davis is the big dog of the age, and you my dear sir, are now the tin kettle tied to his tale. Wat joy! Wat happiness! When posterity speak uv Him they'll speak of Yoo!"

I coodent restrane myself no more. Bustin into teers I fell on Greeley's buzzum and we embraced. Ez he hend this spectikkles on he sposed it wuz Davis hiself and he busted into teers also and there wuz wun uv the most striking tableaux ever exhibited. I got away afor he discovered his mistake.

Here wuz the endin uv our troubles—the consummashen uv our hopes. Davis wuz FREE! Fr he stept into the street the people crowded to the carriage which contained us and rent the air with cheers. We reacht the hotel and after embracin his wife, a season of religious exercises wuz held. The clergyman who had exclusive charge of Davis pitty dooring the war, wuz present, and he offered prayer. He prayed fervently that the Lord wood forgive the people of the North for the wrong they hed done our sainted hero, that he would forgive, if possible the hitt head uv the Government who had opposed him and the glorious cozz and of Divine mercy could stretch so far that he wood forgive the Colonel uv Michigan cavalry which hed hunted down the Saint who wuz now in our midst, and made uv him a captive. He prayed for forgiveness for the reckless men of the North who invaded Virginny, for the noospaper conductors who hed abozed Horris Greeley, who hed this day in some measure atoned for previous wickidnes.—He prayed that the blessins uv Heven might rest first upon the city of Richmond, then upon the balance uv Virginny, and afterward upon the balance uv the Southern States, and he wound up with a fervent appeal that the Ethiopians, who coodent change their skins, might see the error uv their ways and return to their normal condishon.

I am not permitted to give more of the President's plans than this. He will remain in seclusion and will take no part whatever in politics until after his final acquittal in November. He don't feel at liberty to take hold uv the Government so long ez ther is even a technikle charge agin him. Our friends in the Northern States who expected him to take the stump in their behalf this fall, will be disappointed. I return to morrer to Kentucky.

PETROLEUM V NASBY, P M,
(Wich is Postmaster,) and Professor in the Ham and Japeth Free Academy for the detelopment uv the intellect uv all the races, irrespective uv color.

More Shooting in Fun.

The shooting of a young lady named Mary Mann by Charles Loomis, proprietor of an eating house at Schoharie, in the State of New York affords another text upon which the propriety of punishing those who indulge in the fun of discharging firearms at their friends, may be urged. It appears that Loomis saw Miss Mann in the street at some distance, and being a great humorist, called out, "Mary, I'm going to shoot you." The girl replied, "you dare not." But she was mistaken. She was not aware how funny Loomis could be when he tried. The witty fellow immediately levelled a gun at her and fired load, lodging twelve shots in her face, neck, breast and arm. She was not killed outright, but only scarred for life, and very seriously wounded. Her whole cover probably. Loomis was arrested, and, being asked why he fired, excused himself by saying he had not the slightest idea the gun would carry so far. Of course he was horrified at the result of his joke—the shot gun joker always is—that being one of the great features of the joke.

Now we insist that Loomis and other witty fellows like him who shoot people for fun should be restrained somewhat, and we know of no better way to do it than to hold them responsible in the same manner that they would be held if the act was the result of malice. The safety of community requires the passage of a law making the mere act of pointing a gun or pistol at any one a misdemeanor, punishable with fine and imprisonment. The attempt to fire a gun or pistol at any person without malice should subject the guilty party to imprisonment in the county jail or penitentiary. To actually discharge a gun or a pistol at any one without malice should be made a felony, and to maim or kill any person by such conduct should be punishable by imprisonment at hard labor for a period of not less than five years, and in some cases for life.

It is poor consolation for the maimed or dying victim of a practical joker to know that his or her wounds were inflicted solely for the amusement of another.

STEVENS HOUSE,
21, 23, 25 and 27 Broadway, N. Y.
(Opposite Bowling Green,
ON THE EUROPEAN PLAN
The STEVENS HOUSE is well and widely known to the travelling public. The location is especially suitable to merchants and business men. It is in close proximity to the business part of the city—is in the highway of Southern and Western travel—and adjacent to all the principle Railroad and Steamboat depots.
The STEVENS HOUSE has liberal accommodations for over 300 guests—it is well furnished and possesses every modern improvement for the comfort and entertainment of its inmates. The rooms are spacious and well ventilated—provided with gas and water—the attendance is prompt and respectful—and the table is and ever has provided with every delicacy of the season—at moderate rates. Titusville Morning Herald.

Titusville, Wednesday, May 29, 1867.

☞ READING MATTER ON EVERY PAGE

Varieties.

—A regular meeting of the Common Council will be held this evening.

—The G A R, Post 55, will hold a regular meeting this evening A full attendance is requested.

—Yesterday the Foster Farm Oil Company sold 1,000 barrels of 48 gravity oil at the wells on Pioneer Run, at 5 cents per gallon

—The rapid rise in the temperature yesterday morning, after the shower, was a subject of general remark At 12 o'clock the mercury marked eighty degrees in the shade

—Yesterday a colored individual named Saml Trent, who keeps a laundry at Petroleum Centre, was brought before Justice Donaghy, of that place, on the charge of having stolen a quantity of goods from the store of S Sobel during the fire of 24th of April last Trent plead guilty and was held to bail in the sum of $200

"Viva la Patria!"

This is the joyful greeting that Benito Juarez sent to General Berriabal from San Luis Potosi on the 15th day of May Official letters and dispatches from Brownsville, from Matamoras agree with this and confirm the intelligence of the triumph of the Liberal forces Quartero (it should read) Queretaro, the report says, has fallen Queretaro is a place of about thirty thousand inhabitants, full of churches and monasteries and factories, and about one hundred miles from the City of Mexico It was in Queretaro that the treaty of peace between Mexico and the United States was ratified in 1848 by the Mexican Senate It was in Queretaro that Maximilian had made his last stand, and awaited the hour of his destiny—Queretaro fell "by force of arms" it is said, so we may infer that Maximilian fought for his Empire and his crown to the last To the very last he struggled, and yielded only inch by inch He retreated from La Cruz to the Plaza and from the Plaza, still obstinate, he retired, after the capture of the garrison, towards Cerro de la Campina pursued by artillery and then at the mercy of the enemy, Maximilian and his generals became prisoners of war. And directly after their surrender the Liberal army turn their victorious banners towards the Capitol We expect to hear that the gates of the City of Mexico will be opened to the conquerors, for now that they are deprived of their leader, the Imperialists would be very foolish to protract the contest They would only incurr resentment, and sterner penalties at the hands of the successful nation As for the fallen Emperor, it is doubtful whether our intercession will save him from a summary execution, or a drum head court martial The Mexican Emperor Iturbide was shot in 1824 under similar circumstances, and Maximilian is likely to suffer the same fate To entitle him to mercy he should have availed himself of our good offices long ago When the emissary of our Government reached Juarez, praying that the life of the royal prisoner be spared, the Liberal chief no doubt signified his willingness to grant the petition, and afford him a safe conduct out of the country, but Maximilian by holding out, spurning and defying alike the clemency and the power of his rival, has now no quarter to expect We are, therefore, inclined to credit the report of General Escobedo that "President Juarez has ordered the Arch Duke and all his generals to be shot" "Archduke" is the title given to Maximilian by the followers of Juarez, the title of Emperor they treat as an assumed one, founded in the usurpation which has at last received its final quietus and death wound The last words words of the dispatch are significant "*So ends the struggle in Mexico*" And Napoleon will pull his mustaches with chagrin when he reads the cable news to day, and henceforth "Queretaro" will sound as gratingly on his ears as "Luxemburg" Latin ideas and races have no place in the nineteenth century, at all events they are plants that that do not thrive on American soil Now that Juarez has the reins of power If he wants to secure the sympathy and support of the United States Government, let him remodel the Republic after our own institutions Let him open the Courts to the public, and introduce the jury system, tolerate Protestantism, and guarantee religious freedom Only thus can he get intelligent immigration and secure peace and enlight ened progress Otherwise, we shall see a renewal of intestine commotion, industry arrested and the land drenched in fraternal blood, provinces revolting and asserting their independence of the federal head, as during the Presidency of Santa Anna Let Juarez adopt these reforms, or the day is not far distant when we shall annex the Isthmus of Tehuantepec, Sonora and Chihuahua to the American Union, as in the case of Texas for history is constantly repeating itself

About Gold—Some time ago it was reported that an enterprising genius had conceived the idea of collecting a million dollars in gold for the purpose of putting them on exhibition, in order that people might be able to see what that amount of the precious metal looked like We have not heard that this plan was put into operation, probably from the difficulty experienced in collecting the required million The fact is, however, that very few persons have any adequate conception of the value of large masses of gold and silver, and it may be interesting to some to be informed that a cubic yard of gold would be worth within a fraction of $10,000,000, and it has been calculated that the whole of this metal in the world might be contained in a room twenty four feet square All the gold that has yet been obtained from the rich mines of California and Australia, if melted in a solid cubical block, would only be nine feet square and nine feet high, the value of which would be about $270,000,000

Personal—We are glad to see that a deserving man, Mr T A. Morrison, of Pleasantville, has a fair chance of obtaining from the Republican party of Venango county the nomination of County Treasurer We are unacquainted, by name even, with any of the other gentlemen announced for the office and cannot therefore be accused of partizanship in the matter. Mr. Morrison is a native of the county and served with honor as a volunteer, losing an arm on one of the Virginia battle fields If Mr Morrison succeeds, we shall rejoice that not only a good and a capable man, but that a faithful, deserving and maimed soldier has been awarded a lucrative position Let the people of Venango county honor themselves in honoring one of the country's defenders!

I O G T,—We have received a note from the Secretary of the New Castle Lodge, No 59, I. O. of G. T., stating there is to be a great temperance convention at that place on the 4th of July next, and inviting lodges of Good Templars, Temple of Honor, and other temperance associations, to send delegates, in a proportion of one to every twenty five members, and requesting that all lodges, accepting the invitation, notify him (Gerson L. Levi) of the fact Temperance lodges will please take notice

J. L. Connelly and F A Morrison are the Justices of the Peace at Pleasantville, and all business entrusted to either of them will meet with prompt and thorough attention

Justice's Court.

BEFORE GEO. M MOWBRAY, ESQ

Commonwealth vs John Thiebault Charles Dorn, who made his appearance with a severe scar on the right cheek, accompanied by his wife whose thumb was bleeding from a lacerated wound, and who had in her possession a small double barrel pistol, complained at 8 o,clock on the evening of the 27th, that John Thiebault had committed an aggravated assault upon him (Dorn) and that but for the intervention of his wife, who snatched the pistol from Thiebault's hand, he verily believed defendant whould have carried out his threat, "to shoot him dead" Cross examination developed the fact, that on Dorn's applying for payment of a note, and failing to get his money immediately, he had used language implying that defendant had defrauded the United States revenue, and was further engaged in selling liquors without license This so provoked defendant, that he seized the pistol and inflicted the wound on Dorn's face, and in Mrs Dorn's attempt to save her husband, her hand received a severe laceration Complainant and defendant having until recently been in partnership as refiners of petroleum, a hearing was deferred until ten o clock a m the next day, to allow time for reflection and quieting of passions

Meanwhile the defendant applied for and obtained, warrants against Charles Dorn and Annie his wife, and these warrants were placed in the hands of officer Leslie, at ten p m, to arrest the parties Thereupon, in lieu of assenting to a settlement on the ensuing day, as is permitted in the Justice where complainant assents, the Squire remarked The practice of meeting a charge by preferring a counter charge, which is never intended to be followed up, but used to intimidate a complainant into a settlement, must be stopped, or Justices' Courts will soon fall into disrepute with our citizens, if, however, these counter charges and warrants have been sought in good faith, the parties who procured them, cannot complain if I remand the case for a Jury to decide upon It is shown that a severe struggle has taken place between these two men, and two inquiries before two Justices will not decide the difficulty with the same authority, as a trial before a jury of twelve citizens presided over by a Judge at Quarter Sessions I therefore require the defendant to enter into recognizances with two sureties each of $100, for the appearance of the defendant I also require the complainant to enter into his own recognizance for $100 to prosecute, and remit the case to the next Quarter Sessions of the Peace to be held in Meadville. A settlement must take place with the consent of the presiding Judge, as the suggestion of the District Attorney, if the parties are so inclined, counter charges will not facilitate it before me Bail being given as required, the defendant was released

Interesting Experiments with Petroleum As scientific men and others are now much interested in the practical application of combustible oil, as a means of fuel, in driving machinery, &c, the following experiments, recently made by the United States Government on board the United States steamer Palos, lying at the Boston Navy Yard, may convey hints and instructions to our business men engaged in steam navigation on the lakes and in large factories A reporter of the Boston *Post* in describing the experiments he witnessed on the steamer Palos, in the use of crude petroleum as a fuel for driving an engine of about three hundred horse power, says

The first thing that attracted our attention was two large iron tanks of crude petroleum on deck Attached to these are pipes which supply the oil for the retort below The retort is made of boiler iron, and in it are inserted a number of gas pipes spreading out in arms or openings for supplying one hundred and twenty five burners The steam taken from the boiler is passed through a coil of iron pipe charged with iron filings which are arranged so as to be exposed to the hottest part of the fire The coil of iron pipe and fittings become red hot, decompose the steam, separating the oxygen and hydrogen, and as a natural consequence, the gaseous components enter the retort and mingle with the vapor of the oil By means of an air pump, atmospheric air is forced into the retort at the same time the steam is decomposed, and mixes with the elements of the fire The combined gases then escape into the furnace, igniting from the intense hot flame—During this chemical combination, the oil does not come in contact with the fire, but is run into the iron retort before alluded to, which is kept hot by a series of heaters underneath The oil is only supplied as fast as it can be converted into vapor The supply of steam, and air, and oil, is graduated by means of small throttle valves, and the fire thus increased or diminished at will, and instantaneously, if desirable

The greatest wonder about all this invention is its simplicity, cheapness and durability—there being no complicated machinery and no sulphur in the liquid fuel to effect the iron Thus far, in the course of the experiments, the result obtained is highly satisfactory to all concerned—equivalent to making 1 lb of petroleum to do the work of 8 7 10 lbs of coal We were told that three men with the use of petroleum, can do the work of twenty men in running the machinery As a matter of room saving, the use of petroleum on board of vessels is very great The Palos has capacity to stow away coal sufficient to last six days petroleum enough can be stowed in the same vessel to last for twenty days, and that too in places inconvenient or unavailable for freight When we left the vessel, the engine had been running eighty seven hours without cessation, with only three fires, and carrying an average pressure of 35 pounds of steam The inventor, Col Henry R Foote, is, of course, highly gratified at the success of the experiments, thus far

The Prospect of the Crops.

Unless the recent heavy rains shall do the damage which some extra sensitive persons fear, it is likely that the crops for the present year will exceed anything known in the history of the country, The area planted exceeds by thousands of acres the space appropriated to such objects at any previous time The North and West increase the number of acres of grain by remarkable figures, and the South, hitherto so devoted to the profitable and peculiar staples of that section, as to choose rather to buy breadstuffs than to plant grain, has learned by severe experience that wheat is of more real importance to the interests of mankind than cotton The fields are, therefore, well filled with the growing cereals, and according to every appearance the crop will be full This bounty of Providence is needed to assist the country in getting back to a sound and healthy condition of affairs A good crop will supply us with the means of meeting our responsibilities, and ease the pressure of foreign demands it will enable us to pay our debts, and furnish our immense population with the sustenance which is the first necessity of nature—With a bounteous crop also is intimately associated a general improvement in our affairs High prices, kept up by unnatural stimulus, must drop down, and with them there will be a further progress toward the period when the country will approach somewhat more nearly the prosperity and happiness of the good old times

Registered in Bankruptcy—The following is a partial list of nominations of Registers of Bankruptcy for the Western District of Pennsylvania, and recommended by Chief Justice Chase for appointment to Hon Wilson McCandless

Twelfth Congressional District—Edward N Willard, of Scranton, Luzerne Co

Thirteenth District—Edward Overton, of Towanda, Bradford Co.

Seventeenth District—John Brotherline, of Hollidaysburg, Blair Co

Twentieth District—Lorenzo D Rogers, of Franklin, Venango Co

Twenty first District—James A Hunter, of Greensburg, Westmoreland Co

Twenty-second District—Samuel Harper, of Pittsburgh, Allegheny Co.

Twenty third District—J. N Parviance, of Butler, Butler Co

Twenty fourth District—J B Donley, of Waynesburg, Greene Co.

Brown Bros.—Pleasantville.

In the year 1833, thirty-four years ago, this house was established by the father of the present proprietors, and for the allotted period of one generation it has continued, ever keeping pace with the growth and settlement of the country, and meeting all the varied wants of the community—From small beginnings, it has grown to great proportions A small store room at first sufficed for the infant trade, but now its maturity requires for its operations one of the largest buildings, that is used expressly for such purposes in this part of the State In 1833 the sum total of the wants of those who visited the store, could be soon enumerated and the schedule of articles purchased was confined to those things only that were deemed absolutely essential, but now, to meet the demands of its customers, everything that fashion dictates or a refined and cultivated taste demands, must be furnished, no less than the staple commodities of ordinary trade

In 1833 the goods were brought on wagons from Pittsburgh, over roads of such execrable character that a full week was consumed in getting through, and the cost was three dollars per hundred pounds On heavy goods this was a heavy tax. The Railroads and Express companies now transport in a day or two from New York, Boston, Philadelphia or Chicago, at a fraction of the former expense, compared with the distance the merchandise is transported The arrival then of a wagon load or two of goods *all the way from Pittsburgh* was an event of more importance to the early pioneers of the section, than would be the landing of stock costing in New York $10,000 Then the quality of the chest or two of tea, the hogshead of raw sugar, the barrel of molasses, the few pieces of prints or jeans was fully discussed and ably discanted upon by the neighbors for mid wide and their comparative merits with former stock or some competitor's goods well weighed

But those days and times, customs and habits, have passed away and given place to the demands of the new order of things Could the customer of 1835 have been put into a 'deep sleep" as he wended his way home through the woods with his quarter of a pound of "store tea," and have been awakened to day and caused to retrace his steps to Pleasantville and enter the Brown Bros' store it would require the genius of Irving, yea the veritable legend of Rip Van Winkle to "do justice to the occasion" Not being possessed with the genius necessary and the legend being the property of others, we shall not essay the task, but leave our readers to draw their own conclusions

The present proprietors of the Brown Bros' establishment are well known citizens of Pleasantville, John, Alexander and Samuel Q Brown Their business has grown with an unexampled rapidity, and they have from time to time added to their buildings until now they have a very spacious and excellently arranged building or buildings to display their goods

THE GROCERY AND HARDWARE DEPARTMENT is under the able management of Mr William E Banks and occupies the main brick building—An enumeration of the classes of goods would be tedious and is unnecessary In addition to all that is usually found in such stores, the specialities of the oil regions are kept, such as heavy cordage, tubing, sucker rods, blacksmith s bellows, and other oil well supplies

THE CLOTHING AND GENTS FURNISHING GOODS DEPARTMENT

is presided over by Colonel James S Warner, formerly of the 145th Pa Vols, who raised a company in Pleasantville, and served through the war The stock of ready made clothing is full, and varies from the suits that will fit the little boys of six years old, to the required size for a six footer, and in quality and price adapted to the taste and purse of the purchaser The class of goods called "gents furnishing" embraces a bewildering list of fancy and useful articles Hats and caps, gloves, &c, in the latest styles and of the usual qualities kept in the best stores are also dispensed by the Colonel

THE DRY GOODS DEPARTMENT

is under the careful and intelligent supervision of Mr C A Willoughby, formerly of this city We were shown by Mr W a dazzling display of fine and elegant dress goods, the rarest products of the looms of France England, Switzerland, Germany and this country We should like to enumerate some of these choice fabrics, but we are not skilled in the nomenclature of poplins, jaconets, reps, mozambiques, &c, &c Of this we can assure our friends, all the names you can think of to designate the things made up into ladies dresses and garments, whether of silk, linen or cotton, separately or combined are there, from silks that will "stand alone" to the plain cat and cheapest prints

There are several classes of goods, such as crockery, glassware, Yankee notions, carpets, oil cloths, window curtains and fixtures, mirrors, brushes, wooden ware, paints, oils, glass, canned fruits, school books, stationery, lamps, &c, that fall into one or the other of the departments before mentioned

There is one thing we will not forget to mention, which is, that the reputation of this establishment stands excelled by none for fair and honorable dealing Many years may their success attest that business conducted on sound principles never fails to bring a proper reward

The Recent Anniversaries—The receipts and expenditures of the various religious societies that have recently held their anniversaries are reported as follows The American Bible Society of New York received $734,089 and expended $587,655, the American Tract Society of New York received $545,181 and expended $544,343, the American Tract Society of Boston received $160,569 and expended $157,926, the American Home Missionary Society received $212,567 and expended $327,963, the American Missionary Society received $258,000 and expended $270,000, the Seamen's Friend Society received $37,119 and expended $53 299, the American Female Guardian Society received $87,708 and expended $67,946, and the Howard Mission Society received $87,154 and expended $82,987

Novel Invention—Blair & Needham have invented a novel method of advertising which for utility and cheapness is the best that can be employed It consists of a nicely bound album, in which is inserted a business card and a selected photograph on the same page

The albums are to be left in the reading rooms of the several hotels in this vicinity, Pithole, Petroleum Centre and Corry, securing a large circulation for a nominal sum

Mrs O B Watson, the Postmaster at Pleasantville, is our duly authorized agent for receiving subscriptions for the Morning Herald or the Weekly Herald We think with little effort on the part of our friends in that vicinity, a club of twenty-five could be easily raised The subscription price is but $2 per year Call on Mrs Watson, at the Post Office, and leave your money for the Weekly, or subscribe for the Daily, $2 50 per quarter, $10 per year

The Pittsburgh *Gazette* comes to us enlarged, it is now of the size of the *Commercial* It is edited with ability and that it can hold its own with the *Commercial*, is a proof of its good management. The *Gazette* is as well anchored in Republican principles as any organ of that party can be affirmed to be in these days of political chaos and disintegration.

Disbursement of the Contingent Fund.

The statement of disbursements of the contingent fund of his department, sent in by Mr Secretary Seward, contains many interesting and some curious items Subscriptions to newspapers are numerous, and the *Evening Post, Times, Round Table* and Chicago *Republican* come in for small shares of diplomatic favor About forty firms are paid for books, and fifty four newspapers receive $18,000 for publishing the laws.—One thousand eight hundred and sixty seven dollars was paid for the board of Queen Emma to Messrs Sykes, Chadwick & Co Messrs McCarthy & McGraw are credited $125 each for "Amnesty Oath," and $106,610 is placed opposite "The President's approval," which occurs under the head of "To whom paid" M B Brady receives $139 50 for photographic visages of the State Department Eight hundred and eighty one dollars are spent for presents to Tunisians. "President's approval" is again credited with $5,800, and again with $3,325 It is significant that one Mr Burley received $265 for white-washing, and that the State Department invests largely in soap

Presentation by Odd Fellows—In Philadelphia, on Thursday evening last, Grand Secretary, Wm Curtis, was presented with a fifteen hundred dollar Five Twenty bond by a committee of the Grand Lodge of Pennsylvania as a testimonial from the Odd Fellows of the State for his faithful discharge of duty during a term of twenty six years Several Pittsburgh P G's presented Past Grand Charles N Foster with a magnificent wooden star at the same time, which was placed about his neck amid much merriment

LOCAL NOTICES.

Chautauqua Lake and its surroundings, form one of Nature s most charming pictures Travelers may journey thousands of miles and find no scenery so enchanting, no landscape so beautiful!

Business men and dyspeptics generally, and the ladies in particular, go and take a trip on the Lake, breathe the pure and invigorating air and behold some of the grandest scenery in the world! Nature s medicine is better for you than drugs concocted by man, change your dusk stool, your invalid easy chair, with its humdrum and wearying walls and curtains for a lounge on the steamer's deck, and sight the

"Hills, rock ribbed and ancient as the sun,"

and—

"Gentle vales with green vesperings between"

Chautauqua Lake is fast becoming a favorite resort for invalids and tourists. To accommodate them, excellent hotels are established at either extremity of the Lake Parties going to or from the oil regions to Buffalo will find this route as cheap, about as quick and far pleasanter, than by Erie

The staunch steamer CHAUTAUQUA, has been refitted throughout this spring, and an awning added, extending from the pilot house to the stern, and began her regular trips from Jamestown to Mayville, April 24 Connects with the Lake Shore Railroad at West Field, arrive at Mayville at 5 20 p m James M Murry, the well known and so popular, is put in command. Connects with Buffalo & Cross Cut Railroad at Mayville and Atlantic & Great Western Railroad at Jamestown
HILL, MURRY & CHASE,

Titusville, April 30, 1867

Bradley's Skirts are now worn wherever is borne
The products of Science and Art,
And invention never caught, nor enterprise brought,
A Better to Fashion's Great Mart
No Skirt in the trade lines, well liked by the ladies—
Be they Maiden, Wife, Widow, or Mother,
They may sit as they please, in a full stage at ease,
And always have room for a Brother.

SPECIAL NOTICES.

Spence's Petroleum Burner.—I respectfully invite the attention of all persons using coal or wood as fuel, to my new invention bearing the above title, which substitutes petroleum, petroleum tar, or other fluid hydro-carbons to produce heat as a motive power Its successful operation has been demonstrated beyond cavil, as will be seen by the subjoined testimonials from disinterested parties, well known throughout the oil regions The following considerations will commend it to general use First—Its economy It will save from 30 to 75 per cent of the ordinary expense of coal or wood Second—Its perfect safety There is no possibility of explosion—the fire being prevented from running back to the feeder by the air blow pipe surrounding the same. Third—Its universal application It can be adapted with equal facility and success to all kinds of portable, stationary and marine boilers and in locomotives for generating steam, under all kinds of stills, retorts, &c. Fourth—Its labor saving advantages After being set in operation, such is the simplicity of the process, that it can be run with perfect uniformity with but little attention. It can be as easily regulated as a kerosene lamp, I with as complete combustion Without enlarging further I give the following extract from my 'Letters Patent, setting forth my claims to this specific invention

1st Providing within the fire box or furnace a solid substance or its equivalent, capable of receiving and retaining the required degree of heat for reducing petroleum or other fluid hydro-carbons, into gases when brought in contact with the same

2nd The within described method of supplying the fuel and oxygen, by discharging petroleum or other fluid hydro carbons through one or more pipes, having their orifices within blow pipes or their equivalent, when applied and operated in combination with a heater

3d The use of one or more blow pipes, or their equivalent for the purpose of supplying oxygen and concentrating the heat, when applied and operated in combination with the heater

4th The within described method of reducing and consuming crude petroleum and other hydro carbons, by impinging one or more currents or jets of the same, upon or against a solid heated substance or its equivalent, within the fire box or furnace, capable of receiving and retaining such a degree of heat as shall resolve said crude petroleum, or other hydro-carbon into gases.

5th An apparatus for burning crude petroleum, or other fluid hydro-carbons, consisting substantially of a heater one or more pipes for supplying the fluid hydro carbon and one or more blow pipes, combined and applied for the purpose set forth in a set forth

In conclusion, I hereby give notice to the public of my intention to enjoin all parties infringing upon all or single of the claims above set forth secured by my Letters Patent

Titusville May 20th 1867

I am using one of Spence s Patent Burners at my mill No 3 Bull Run and can recommend it to any one on account of simplicity, safety and economy in creating perfect combustion O Reese

Oil City, Penn Reservoir No 6
Henbook Run May 10th 1867

To whom it may concern

We have had in use for the last ten days one of Spence s Patent Crude Oil Burners at one of our wells, and find we are saving at least one third of oil per day over the old management we could not get up steam in a decided success, as far as economy and safety is concerned We were using previous to using the Patent Burner, from two to two and one half barrels N J Tompkins, Supt.

Forest Farm, May 11 1867

Having used Dr G O Spences Patent Oil Burner for several days to my entire satisfaction I take pleasure in recommending it to all those using crude oil for fuel in boilers as a perfect consumer of crude oil producing no smoke and leaving no tar or residuum and creating an intense heat with at least 25 per cent less oil than by the customary method of burning oil in pans N H Layn

Office McElhenny Oil Co
Uniontown Pa May 8 1867

To whom it may concern

I have used one of Spence s Patent Burners for the past two weeks in a 12 horse power Wood Tubular M B engine with quite satisfactory results as regards economy of fuel When properly handled sixty gallons of crude oil run said engine twenty four hours H Dwight Agent.

Bryan Dillingham & Co of this city, are engaged in manufacturing the above described apparatus and will inform parties desirous of purchasing the same of the form and where agents may be found to set them up All orders or communications addressed to me, will meet with prompt attention G O Spence

SPECIAL NOTICES.

Consumption Curable by Dr. Schenck's Medicines.—To Cure Consumption, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good and wholesome food, which, by these medicines will be digested properly, and good healthy blood made; thus building up the constitution. Schenck's Mandrake Pills cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

Schenck's Pulmonic Syrup is nutritious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, Consumption very frequently in its last stage yields reality to their action Take the pills frequently to cleanse the liver and stomach If does not follow that because the bowels are not costive they are not required, for sometimes in diarrhea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the room as much as possible, eat all the rich food—fat meat, game, and, in fact, anything the appetite craves, but be particular and masticate well.

circumference, expressly for Ladies' Short Walking Dresses, now all the rage in the

Fashionable World.

Also, all of NEW FASHIONABLE SHAPES in the "PRIDE OF THE WORLD," "PARIS TRAIL" and all OTHERS of our POPULAR STYLES. The QUESTION SETTLED by the FASHION MAGAZINES in FAVOR of

J. W. BRADLEY'S

CELEBRATED

Duplex Elliptic

(OR DOUBLE SPRING)

SKIRTS!

THEY are the most DURABLE and ECONOMICAL as well as the most GRACEFUL and ELEGANT SKIRT MADE in the world! Each Hoop is composed of TWO FINELY TEMPERED Steel Springs BRAIDED TOGETHER and FIRMLY COVERED, thus forming the STRONGEST and most flexible Hoop made—They will not BEND or BREAK like the Single Springs, but will PRESERVE their Graceful and Perfect SHAPE where two or three ORDINARY Skirts have been CAST ASIDE AS USELESS

CAUTION.

To guard against Imposition, be particular to Notice that skirts offered as "Duplex," have the red ink stamp, viz "J W Bradley's Duplex Elliptic Steel Springs," upon the waistband—none other are genuine Also notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double springs) braided together there in, which is the secret of their Flexib

Titusville Morning Herald.

All Sorts.

Boston and East Boston are to be connected by a suspension bridge that will cost half a million.

It is four hundred and seventeen miles from the present terminus of the Kansas Pacific Railway to Denver.

The book-keeper of a dry goods firm at Cincinnati returns more income for last year than all the members of the firm together.

The exports of wool last year from California amounted 4,600,000 pounds, and the local consumption 2,700,000. This year the manufacture, it is estimated, will consume nearly four millions of pounds, giving an increase of almost fifty per cent.

Chicago is one of the largest green hide markets in the Union; she sent 25,000 sides of upper leather East, last year, to be manufactured into boots and shoes.

A company is being organized in San Antonio, Texas, to build a cotton and woolen mill that will run about sixty looms and cost about $200,000.

New Hampshire is now having a railroad fever There are as many as ten or eleven projects on foot. There is scarcely a section of the State which has not a favorite scheme in which citizens are deeply interested.

The tobacco crop of the United States is reported at 330,501,500 pounds for the year 1866—This is a falling off of 104,620,000 pounds, as compared with the crop of 1860

There was manufactured and sold in the town of Cambridge, Vt, last year, over three hundred tons of butter, which, at thirty eight cents, the average price paid, amounted to $228,000

An ingenious and philanthropic person at Hartford, Conn, is reported as having invented a contrivance to burn water, and the flame, which is of wonderful intensity, can be produced in three minutes, governed by a thumb screw, and be applied to any purpose as easily as any fire

A farmer in Saratoga county, New York, has lifted a barrel containing one hundred and forty five pounds of sugar, with his teeth, after which he offered his bet $25 that he could lift it with twenty-eight more pounds on it

A locomotive constructed in the workshops of the Orleans Railway Company, has run 96,150 miles, in three years, without submitting to any repairs The engine is to be exhibited at the Paris Exposition, and is worthy of it

ORDINANCE—To tax Dogs and restrain them from running at large

SEC 1 Be it ordained by the Common Council of the City of Titusville,

That every animal of the dog kind, coming into the ownership or possession of any resident of said city, shall be immediately registered by said resident with the Mayor, and said resident shall pay at the same time to the Mayor for the use of the city, a tax of one dollar for each dog, and of five dollars for each bitch so owned or possessed by said resident, which tax shall be paid annually thereafter to the Mayor Any animal of the dog kind not so registered, and on which the said tax has not been paid may be killed when running at large in the said city, at any time by order of the Mayor or the Chief of Police, and it is hereby made their duty respectively to enforce this provision

SEC 2. No person or persons shall permit or suffer his dog, whelp, or bitch, to run at large within the limits of said city from the first day of June till the first day of October in each year, unless said dog, whelp or bitch is securely muzzled with an wire muzzle, properly fastened with chains or leather straps; and unless said animal, during the whole year wears a collar, with a bright metallic plate thereon at least one inch in width with the name of the owner of said animal legibly engraved thereon The word "person" in this section to be construed to mean as well the keeper or possessor as owner of a dog bitch or whelp

SEC 3. It shall be the duty of the Chief of Police, and of such persons as are authorized by the Mayor, to kill all animals of the dog kind found running at large not twenty to the provisions of this ordinance

SEC 4 The Mayor is hereby authorized and required to appoint such other persons as he may deem necessary, to carry into effect the third section of this ordinance

SEC 5 No person shall molest, hinder or interfere, with the Chief of Police or any person appointed by the Mayor when in the discharge of any of the duties prescribed by this ordinance.

SEC 6. Any person violating any of the provisions of sections two or five of this ordinance, shall on conviction thereof before the Mayor, or any Alderman of this city be fined in any sum not exceeding twenty dollars or be imprisoned in the city prison not exceeding ten days or both at the discretion of the court

SEC 7 The person or persons appointed or directed to enforce this ordinance, and any citizen killing any dog shall carefully bury the same, and the expense shall be paid by the owner of such dog whelp or bitch if known and found, or if there be no known owner or claimant of such dog, whelp or bitch, and expense shall be paid and borne by the city

SEC 8 If any person the owner or harborer of any dog, whelp or bitch, as aforesaid, shall neglect or refuse to pay the expense of burying said dog, whelp or bitch, on demand such owner or harborer, shall forfeit and pay the sum of five dollars for such neglect or refusal Provided the costs of such burial shall in no case exceed the sum of one dollar and provided further that nothing in this ordinance shall prevent said owner or harborer from himself burying such dog, whelp or bitch as aforesaid, if immediately done by such owner or harborer

SEC 9 All ordinances or parts of ordinances heretofore passed and in force, relating to animals of the dog kind are repealed from and after the expiration of ten days after the passage and approval of this ordinance

Passed May 15th 1867
E D FLETCHER, Pres of Council
Attest J BYLES Clerk
Approved May 16th 1867
JOEL N ANGIER, Mayor

SEWING MACHINES.

ELLIPTIC SEWING MACHINE.

Highest Premiums, New York and Pennsylvania State Fairs, 1866

Report of Committee on Sewing Machines, at New York State Fair:

We, the Committee on Sewing Machines, after a careful and thorough investigation into the respective merits of the various machines submitted for examination, find the Elliptic Lock Stitch Sewing Machine to be

SUPERIOR TO ALL OTHERS

In the following points, namely

Simplicity and Thoroughness of Mechanical Construction
Ease of Operation and Management.
Noiselessness and Rapidity of Movement.
Beauty, Strength and Elasticity of Stitch
Variety and Perfection of Attachments, and Range of Work
Compactness and Beauty of Model and Finish
Adaptation to Material of any Thickness, by an Adjustable Feed Bar, and in the Unequaled Precision with which it Executes the Lock Stitch, by means of the Elliptic Hook, and we therefore award it the First Premium, as the BEST FAMILY SEWING MACHINE, and also, for the above reasons, the First Premium, as the BEST DOUBLE THREAD SEWING MACHINE."

FINANCIAL.

FISK & HATCH,

BANKERS,

AND DEALERS IN

Government and other Desirable Securities,

NO. 5 NASSAU STREET, N. Y.,

recommend to investors the

FIRST MORTGAGE BONDS

OF THE

Central Pacific R. R. Co.

This Company is constructing under the patronage of the

United States Government

the Western end of the

Great National Railway across the Continent.

Their line will extend from Sacramento California, across the Sierra Nevada to the California State line, traversing the RICHEST AND MOST POPULOUS SECTION OF CALIFORNIA, and thence through the GREAT MINING REGIONS OF THE TERRITORIES, to the vicinity of Salt Lake City

It forms the SOLE WESTERN LINE of the only route to the Pacific which is adopted by Congress and aided by the issue of UNITED STATES BONDS.

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished

The FIRST MORTGAGE BONDS of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz

First The rate of interest is SIX PER CENT IN GOLD, payable semi annually in the City of New York

Second The PRINCIPAL is payable in GOLD at maturity

Third The cost of the Bonds, NINETY FIVE PER CENT and accrued interest, is TEN PER CENT less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

Fourth. The UNITED STATES GOVERNMENT PROVIDES NEARLY HALF THE AMOUNT NECESSARY TO BUILD THE ENTIRE ROAD AND LOOKS MAINLY TO A SMALL PERCENTAGE ON THE FUTURE TRAFFIC FOR REPAYMENT

Fifth Owing to this liberal provision, accompanied with EXTENSIVE GRANTS OF PUBLIC LANDS by which the Government fosters this great national enterprise ITS SUCCESS IS RENDERED CERTAIN, AND ITS FINANCIAL STABILITY IS ALTOGETHER INDEPENDENT OF THE CONTINGENCIES WHICH ATTEND ORDINARY RAILROAD ENTERPRISES.

Sixth The Security of its FIRST MORTGAGE BONDS is therefore AMPLE, and their character for safety and reliability is equalled only by that of the obligations of the GOVERNMENT itself

Seventh The net earnings of the completed portion are ALREADY LARGELY IN EXCESS OF THE INTEREST OBLIGATIONS WHICH THE COMPANY WILL INCUR ON TWICE THE DISTANCE, and are steadily increasing rendering the UNINTERRUPTED PAYMENT OF THE INTEREST ABSOLUTELY CERTAIN

Eighth At the present rate of Gold they pay nearly 8 3/5 Per Cent per annum, on the amount invested The Bonds are issued in denominations of $1,000 with semi annually Gold Coupons attached payable in New York and are offered for the present at 95 per cent and accrued interest (in currency) from January first.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country

Remittances may be made in drafts on New York, or in Legal Tender Notes National Bank Notes, or other funds current in this city and the Bonds will be forwarded to any address by Express, free of charge In quiries for further particulars, by mail or otherwise, will receive punctual attendance

FISK & HATCH,

Bankers and Dealers in Government Securities,

NO 5 NASSAU STREET, N Y

N B—All kinds of Government Securities received at the full market price in exchange for the above Bonds

Also

ALL DESCRIPTIONS OF GOVERNMENT SECURITIES KEPT CONSTANTLY ON HAND, AND BOUGHT, SOLD OR EXCHANGED

Gold Coin and United States Coupons bought, sold and collected

Deposits received on liberal terms, subject to check at sight.

Collections made throughout the country

Miscellaneous Stocks and Bonds bought and sold at the Stock Exchange, on commission for cash

Special Attention given to the Exchange of SEVEN THIRTY NOTES of all the Series for the New FIVE TWENTY BONDS of 1865, on the most favorable terms. mar 8 3m
